

(to whom it may concern)

*Subject: Invitation to the WATER SUM Final Event, May 18, 2017, Amman, Jordan*

Szentendre, 26 April 2017

Dear Sir/Madam,

On behalf of the Regional Environmental Center for Central and Eastern Europe (REC), we would like to cordially invite you to the “WATER SUM Final Event” organised by the REC on 18 May 2017 in Amman, Jordan.

As follow up to our earlier announcements the Final Event is organized by the REC for Ministry representatives and WATER SUM beneficiaries from Jordan, Tunisia and Egypt as well as for a broad stakeholders’ community from the MENA Region who deal with water management issues at national and international levels.

Funded by the Government of Sweden through the Swedish International Development Cooperation Agency (Sida<sup>1</sup>) the WATER SUM Project brings together water authorities, practitioners and stakeholders to improve their understandings and skills in dealing with water resources in an innovative and cooperative approach, interoperable with existing water services and institutional structures, supporting intensified efficiency at regional, national and local level.

The main objective is to present the WATER SUM achievements concerning Integrated water resources management, including dialogue and cooperation and adaptation to climate change as well as water security matters that have been tackled by the project. In addition, it will offer a platform for classifying future needs and perspectives for further enhancement of implementation capabilities at national and regional level.

In closure of the project, the WATER SUM FINAL EVENT Conference aims at delivering the results of this 3-year innovative project, within a large regional and international participation, as well as to promote and network with other (EU) projects on Water Management. In parallel, the best Drawing Competition handiworks will be exhibited in the conference hall and prizes awarded.

In order to proceed with the logistical arrangements, we would appreciate if you could confirm to us your details through submitting the Registration form not later than 5 May 2017.
